CARRER OBJECTIVE

Seeking a challenging role in software development where I can leverage my skills in Java, Servlets, and database management. My goal is to contribute effectively to innovative projects while advancing my knowledge and expertise in web application development

PROJECT

Student Management System

- Developed a web-based Student Management System that enables students to view their academic performance while allowing faculty to manage student records, including the functionality to insert, update, and delete marks efficiently.
- Utilized Java Servlets for backend processing and implemented a responsive user interface using HTML, CSS, and JavaScript, with MySQL as the database management system. Integrated JDBC for seamless database connectivity.
- Implemented role-based access control to differentiate functionalities for Admin, Teacher, and Student users, ensuring secure and efficient data handling and maintaining data integrity throughout the application.

EDUCATION

Swami Vivekanand College of Engineering,Indore,Madhya Pradesh   2021-2025
- CSE │ CGPA: 7.2

Makhan Lal Chaturvedi National University of Journalism and   2019-2020
Communication Bhopal, Madhya Pradesh
- DCA │ Percentage:- 90%

Nirmal Vidhyapeeth,Barwaha
- CBSE(class XII) │ Percentage 64%   2018-2019
- CBSE(class X) │ Percentage 55%   2017-2018

IT SKILLS

- **Programing Language:** C, C++, Core Java, Adv. Java, HTML, CSS.
- **Web Technologies:** JSP, Servlets, JDBC.
- **Development Tools:** Notepad++, NetBeans, Visual Studio Code.
- **Database:** MYSQL.
- **Operating Systems:** Windows.

DECLARATION

- I hereby declare that all the above information is true to the best of my knowledge and belief.

Place: Indore
